## **DETAILED ACTION**

### ***Response to Amendment***

This action is responsive to the amendment received on August 12, 2005.

Claims 1-18 are pending.

*Claims 1-18 are allowed.*

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach neither singly nor in combination, the claimed limitations of "an information service offering system for realizing a service to receive information from contributors through a network and to offer the contributed information to a third party for pay, the information service offering system comprising communication units for the contributors, the communication units for the planners, the communication units for the service users and the information sharing server are communicably connected to each other through a network, an information sharing server that comprises a service use instance totalization device which totalizes instances of use of the service registered on the information with respect to each planner and with respect to each contributor; and a profit return amount computation device which computes, on the basis of the results of totalization obtained by the service user instance totalization device, an amount of money to be returned to each planner and an amount of money to be returned to each contributor as portions of a profit made by setting the contributed information; each of the communication units for the planners includes a device which transmits, to the information sharing server, data

for application of registration of each planned page and the corresponding planner information sharing server, a server execution device which executes a service by operating associably with home pages opened by the plurality of contents providers to perform centralized management of orders accepted through the home pages, by converting the purchase order information into a predetermined form in accordance with the order, wherein the service execution facilitates the processing of the order by processing the purchase order information.” as stated in claims 1, 5-7, 11 and 14. These limitations, in conjunction with other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record. A review of claims 1-18, in view of the applicant's amendments, indicates that claims 1-18 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
